PROJECT DESIGN PHASE – I

SOLUTION ARCHITECTURE

| Date	17 October 2022
Team ID	PNT2022TMID07331
Project Name	News Tracker Application

SOLUTION ARCHITECTURE:

   Solution architecture is a complex process with many sub-processes that bridges the gapbetween business problems and technology solutions.

   Its goal is to:

   •Find the best technical solution to solve existing business problems.

   • Describe the structure, characteristics, behavior and other aspects of the software to project stakeholders.

   • Define features, development phases, and solution requirements to the project.

   • Provide specifications according to which the solution is defined, managed, and delivered to the customers.

   •
